DETAILED ACTION

Lack of Unity

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 7 and 9, drawn to a method of contraception comprising administering a progestagen and an anti-progestagen .

Group II, claim(s) 8,¹⁵ drawn to a method of treatment of irregular or breakthrough uterine bleeding using a progestagen only preparation, comprising administering an anti-progestagen.

Group III, claim(s) ^{16-14, 16-18, 2-4}~~10-18, 2-4~~, drawn to a method of anti-progestagen therapy, comprising administering the anti-progestagen of Formula II.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 since they are related to different

Art Unit: 1617

disorders/treatment that are not related as Group I. The special technical feature of Group I is contraception and other groups II and III are related to treatment of irregular or breakthrough uterine bleeding and anti-progestagen therapy, respectively. The disorders/treatments in Group II and III do not relate to the contraception in Group I, since they have different known etiology and known to treat separately.

Because of the above reasons, the inventions of groups I-III do not related to the same general inventive concept.

Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Claims 5 and 6 will be examined with an elected group.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
